I have a thing in my basement in the SAMB.

This Thing is known as Cringestar's Journey.

It died.

I'm rebooting it.

Get hyped.

It's going to be awful. I promise.

I'm posting it on the SAMB and here, so you can suffer along with my homeland.

"It's a disease, a festering amalgamation of prefixes and suffixes that don't exist and shouldn't be together, horrible characterization, subpar writing, and the feeling you get when you step in water with only your socks on."

The very next day, you threw it away
